## Elite Inspiration - Digitally Printed Hygienic PVC Wall Cladding

### Hygienic Cladding with any design possible!

Replace traditional wall coverings with this impact resistant and hygienic cladding which incorporates our unique industrial grade hard coating.

High resolution images digitally printed direct to rigid PVC substrate and coated with the excellent Elite Inspiration technology. This amazing hard coating offers permanent protection to the printed surface providing abrasion and chemical resistance that protects against long term wear and tear together with the robust cleaning regimes.

Common applications for Elite Inspiration:

- **Healthcare**
- **Wetrooms and public toilet facilities**
- **Hotel bathrooms**
- **Leisure facilities**
- **Catering areas (i.e Kitchens)**
- **Front of house (i.e Restaurants)**

This unique cladding technology allows you to replicate any traditional wall cover material such as tiles, wood paneling and marble or apply a completely unique design of your own choice.

In addition to a consistently perfect finish the Elite Inspiration hygienic cladding solution allows speedy installation reducing fitting costs, down time and closures compared to traditional wall coverings such as tiling.

## About This Collection

These beautiful Texture images have been photographed in super high resolution using state-of-the-art cameras and techniques. Most of the images are suitable for printing at up to 2.5m high allowing for full-wall printing.

The very wide panoramic format of many of these images allows for unusual uses such as:

- cladding in long wall corridors,
- kitchen splashbacks
- counter tops
- fabrics
- carpets

or any other large format use where high resolution is required.

## About The Artist

Photo by Alison Harrop

Richard Osbourne is a British photographic artist who specialises in creating art images that are printed at large sizes. A professional photographer since 2003, Richard's artworks are seen by over 8 million people in Britain every year: they are on the walls of hospitals, conference centres, offices, leisure centres and private homes.

Richard has created this unique Textures Collection to bring these beautiful materials to interiors and products.
