

Elite CE-M PVC

Hygienic Wall Linings

Elite CE-M PVC panels provide a quick and simple wall covering solution for a variety of hygienic applications. The hidden-fix tongue and groove panels combine a homogenous foam core with a skin of rigid PVC.

Features

Elite CE-M PVC panels are rigid, durable and highly resistant to impact. Tongue and groove jointing provides a hygienic and virtually invisible seal between panels and ensures simple assembly. A range of handy two-part fixing profiles are available to complete the installation.

Applications

Elite CE-M panels are routinely used to cover damaged wall surfaces in coldroom applications or to provide a quick-fix wall lining solution in a variety of other hygienic environments.
