

1. Identification of the substance / preparation and company

Product name: PRO65 – Part A
Supplier: Beplas Hygienic Walls and Ceilings Ltd
Address: Helix Business Park, New Bridge Road, Ellesmere Port, Wirral CH65 4LR
Emergency telephone number: 0151 356 5727

2. Composition / Information on Ingredients

Hazardous ingredients: None.

3. Hazards Identification

Hazard warnings not required.

4. First Aid Measures

Inhalation: No hazard

Skin: Remove contaminated clothing. Wash with soap and water.

Eye: Flush with water for at least 15 minutes under running water with eyelids held open and obtain medical attention.

Ingestion: **DO NOT induce vomiting.** Immediately rinse mouth and drink plenty of water. Obtain medical attention.

5. Fire-fighting Measures

The material will not support combustion.

Small fires: Use carbon dioxide, dry chemical, sand. **DO NOT** use water extinguisher.

Large fires: Use foam or water fog. Keep containers cool by spraying with water. Fumes evolved in a fire will be mainly oxides of carbon.

6. Accidental Release Measures

Environmental precautions: Do not empty in to drains, sewers or waterways.

Clean up of spillages: Absorb on to earth or sand and remove to suitable place for subsequent disposal in a labelled sealable container.

7. Handling and Storage

Handling: Observe the usual precautionary measures for chemicals.

Storage: Keep containers tightly closed and dry. No special measures against fire or explosion are required.

8. Exposure Controls / Personal Protection

No labelling is required for this material by the classification of the Packaging and Labelling of Dangerous Substances Regulations 1984 and corresponding EEC Directives.

Respiratory protection: Not normally required

Hand protection: Wear plastic or rubber gloves.

Eye protection: Wear chemical resistant goggles.

Body protection: Change contaminated clothing. Wash hands before breaks and at the end of work.

9. Physical and Chemical Properties

Appearance: Thick buff paste

Odour: Almost odourless

pH: Neutral

Specific gravity: Approx.1.7 @ 20°C

Flash point: >200°C

Flammability: Non flammable

Vapour pressure @ 20°C.KPa: Insignificant

Percentage non-volatiles: Above 98%

Viscosity @ 20°C: Approx 3600 @ 20°C

10. Stability and Reactivity

Thermal decomposition: No decomposition detectable up to 200°C

Hazardous decomposition: Formation of combustible and noxious fumes during thermal decomposition.

Hazardous reaction: None observed.

11. Toxicological Information

Oral: Ingestion of small amounts should not cause any serious long term problems.

Dermal: Not known.

12. Ecological Information

Biodegradation: Expected to biodegrade.

Aquatic toxicity: Not known.

13. Disposal Consideration

Disposal of the wet adhesive is governed by the Control of Pollution (Special Wastes) Regulations 1980.

Incinerate only in officially approved incinerator. Emptied containers should be disposed of at incineration plants for domestic or industrial waste.

14. Transport Information

Not classified as hazardous under transport regulations.

Keep separate from foodstuffs.

15. Regulatory Information

No labelling required for this material by The Classification, Packaging and Labelling of Dangerous Substances Regulations 1984 and corresponding EEC directives.

16. Other Information

This adhesive should be used in accordance with the supplier's recommendations.

The information provided in this data sheet is based on our current knowledge of the product and is intended to describe it for the purpose of health, safety and environmental requirements only. It should not therefore be construed as guaranteeing any specific property of the product.
